portfolio-aryan-mudhole.vercel.app | F-1 student, STEM OPT eligible (up to 3 years of work authorization)

EDUCATION

Master of Management Information Systems (MMIS) Expected May 2027
Utah State University, Jon M. Huntsman School of Business, Logan, UT

Bachelor of Engineering, Information Technology 2019 to 2023
Sinhgad Institutes (NBNSSOE), Savitribai Phule Pune University, Pune, India

EXPERIENCE

Graduate Data Analyst, Transforming Communities Institute (TCI) April 2026 to Present
Utah State University, Logan, UT
- Built the Community Justice Administration (CJA) data pipeline from scratch: Python extracts five Airtable tables, transforms them into a coded wide-format dataset, and delivers SPSS-ready CSVs to Box on a weekly GitHub Actions schedule.
- Authored the data dictionary and versioned codebooks so non-technical research staff can use the data independently.
- Evaluated database migration options (PostgreSQL / Supabase) and proposed the infrastructure plan to a USU committee.

Data Analyst, Meals on Wheels August 2026 to Present
Logan, UT
- Gather reporting requirements from program stakeholders and build the datasets and reporting behind the meal-delivery service.
- Develop the front end of the program's application alongside the analytics work.

Teaching Assistant, DATA 5330/6330 Data Pipeline Engineering September 2026 to Present
Jon M. Huntsman School of Business, Utah State University
- Support 27 students in a course covering pandas, PySpark, SQL, Airflow, Databricks and Delta Lake; hold twice-weekly office hours and grade assignments.
- Built and published the course's PySpark setup module: a one-command install script for macOS, Ubuntu and Windows (WSL2), step-by-step guides and an automated install checker, verified on all three platforms.
- Documented 15 common PySpark failure modes and tested the Airflow-on-Azure (Docker, DAG) guide before release.

Teaching Assistant, Cloud Computing December 2025 to April 2026
Jon M. Huntsman School of Business, Utah State University
- Held office hours three times a week, troubleshooting AWS deployments with students: EC2 launch templates, Application Load Balancers, Auto Scaling Groups, IAM Identity Center and Git workflows.
- Graded and gave written feedback on 45+ submissions per assignment, including a Redis and DynamoDB cache-aside (lazy loading) build.

SAP MM Intern, Tata Motors Ltd., Pune, India June 2024 to August 2024
- Analyzed procurement data in SAP MM to identify inefficiencies in purchasing workflows.

Power BI Analyst, Medikart Pharmaceutical Distribution, Pune, India January 2024 to March 2024
- Built automated Power BI dashboards (DAX, Power Query) that cut manual Excel reporting time by 40%.

PROJECTS

- **Medallion ETL Pipeline on Databricks:** scheduled three-task Job moving hourly EIA API data through Bronze, Silver and Gold Delta tables, with MERGE-based idempotent loads, data-quality gates and alerts.
- **AI-Powered Stock Trading System:** end-to-end pipeline on AWS EC2 combining SEC 10-K filings, LLM sentiment (Groq Llama 3), technical signals and XGBoost, executing daily paper trades through the Alpaca API.
- **FinTech Credit Risk:** ensemble models predicting loan default (91% accuracy, 0.94 ROC-AUC) with SHAP explanations turned into credit-risk recommendations for non-technical stakeholders.
- **Housing Market Intelligence:** merged socio-economic datasets for 335 US cities into one regression model surfacing pricing patterns and growth signals.
- **Formula 1 Analytics:** race data across seasons analyzed for lap consistency, strategy and driver performance.

SKILLS

- **Languages:** Python (pandas, NumPy, scikit-learn, PySpark), SQL (joins, aggregations, subqueries), DAX
- **Data engineering:** Apache Spark, Apache Airflow (DAGs), Databricks, Delta Lake, ETL, medallion architecture, GitHub Actions, Docker, REST API integration
- **Data and cloud:** PostgreSQL, Supabase, Airtable, AWS EC2, Microsoft Azure, Git/GitHub
- **Analytics and BI:** Power BI (DAX, Power Query), Advanced Excel, SPSS, KPI development, data cleaning, feature engineering, codebook documentation
- **Certifications:** Databricks Fundamentals accreditation; Snowflake data warehousing workshop

LEADERSHIP AND SPEAKING

- **President, USU AI Club:** led events and brought in outside speakers, growing participation and visibility; represented the club in Washington, D.C. through USU's Covey Leadership Center.
- **Panelist, International Business class (Oct 2026):** invited by the Huntsman School to represent India on culture and business practice between India and the U.S.
